DETAILED ACTION

Drawings

1. Informal drawings have been submitted, which are acceptable for examination purposes only. Formal drawings are due now, as allowable subject matter has been indicated.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-9, 11-13, 16-23, 24-32, 34-35, 46-53, 55-56, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Grayznov et al., U.S. Pat. No. 6,748,534, hereinafter '534.

4. As to claims 1-9, 11-13, 16-23, 24-32, 34-35, 46-53, 55-56, a method and system for partitioned distributed scanning, having: a computer program, master/host computer, a plurality of files, predetermined characteristics, specific content, scan initiating logic, scan dividing logic, task issuing logic, task result logic, scan merging logic, see abs., figs. 3-4c, col. 2, lines 43 et seq., col. 5-6 et seq., col. 7, lines 1-42 et seq., claims 1-3 et seq.. Specific characteristics, worm, Trojan, quarantine or redirecting/locking, a plurality of files, from one or more network, receiving and sending messages, data transmissions, polling/tracking task, status monitoring, see col. 5-7 et seq..

Allowable Subject Matter

5. Claims 10, 14-15, 33,36-38, 54, and 57-59 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 39-45 and 60-66 are allowed. The prior art does not show the features of setting task priority, tasks being outstanding for a predetermined time, a local bus system on the master computer connecting other computers, delegating larger size portions to be scanned.

Conclusion

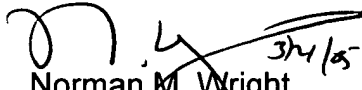

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
